3 HIGHLIGHTS OF 2025

'Juntos Pela Saúde Community Health project in Mozambique

MANNA's partnership with JpS has been a key catalyst for growth, allowing this pioneering health project to thrive & serve more people in northern Mozambique. In 2025, it ran 5 key projects:

- **Estudos para a Vida:** 4,850 ninth-grade students from 19 secondary schools in Lichinga & Cuamba acquired in-depth knowledge on 14 health topics, resulting in improved health practices for themselves & their communities in key health topics such as malaria, diarrhoea, sexual health, pregnancy, etc. 12 new youth facilitators were trained & 21 experienced youth facilitators were strengthened.
- **Dois anos para a Saúde:** Improved the health of 7,000 people in Lione (second year of 2 years of intensive work) and maintain the improvements already achieved in the Namuanica area (2 years of intensive work ended in 2024) in the Chimbunila District covering topics such as nutrition, maternal & child health, WASH, malaria, etc.
- **Saúde para Todos:** 15 groups established, for mostly illiterate women, conducting 21 studies on 12 health topics (including nutrition, vaccinations, etc).
- **Refurbishment & expansion of psychiatry block:** Supporting designated psychiatric care in Lichinga hospital
- **Stroke Support:** CHW facilitated 76 home visits for stroke patients at home

Mustard Seed Fund

Financial sustainability remains a primary challenge for Dioceses, as they navigate the competing pressures of maintaining church buildings, paying salaries, & funding growth. MANNA's annual Mustard Seed Grant seeks to help alleviate this issue & it is given to a Diocese with an income-generating project. Over the last 6 years, we have funded 2 bakeries; 2 chicken farms; a pharmacy and a vegetable & fruit farm.

Lobito Health Centre Pharmacy, Angola

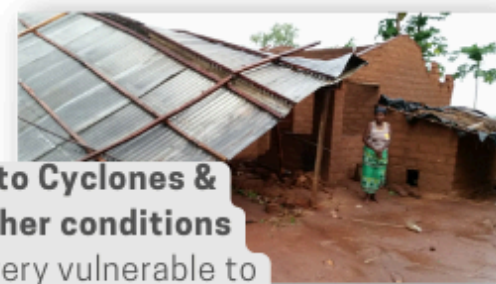

The Nora Sturges Health Centre, opened by Bishop Graham Dow in 2003, has been dependent on financial donations since the beginning. To establish future self-sufficiency and enable the health centre to grow MANNA has funded a pharmacy so they can sell medicines to the local community. This is built and about to be opened.

Education & health projects run by the churches:

such as supporting a local preschool or setting up latrine covers reducing risk of serious health concerns in rural communities

Support due to Cyclones & extreme weather conditions

Mozambique is very vulnerable to extreme weather conditions causing widespread damage to homes, churches and diocesan buildings

Dioceses supporting internally displaced people from the violence in northern Mozambique

Support for the new provincial office - IAMA

How does MANNA support the churches in Mozambique & Angola?

Churches to combat widespread food insecurity across southern Angola due to drought

Churches to run community development projects...
such as this savings project in Mozambique that reduces extreme poverty for women & vulnerable people

Peace clubs & community dialogue projects in northern Mozambique

Support for salaries & clergy homes:
this is a key ongoing need for dioceses to find funds to pay salaries

Church buildings
All the 12 Dioceses have between 20-60 church buildings they need to look after. A lot are still traditionally built so they are aiming to build weather resilient churches

Running church groups
such as youth groups, women's & men groups, choirs etc that enables faith to deepen & grow

Ordinations and theological training...
as the Dioceses grow so does the need for more priests & more training
